Title of the best practice

A. STUDENT'S CONTRIBUTION FOR SOCIAL COMMITMENT:-

1. GOALS:-

- To create awareness in the mind of the students about society.
- To develop the personality of the student.
- To increase patriotic values in the student.
- To develop ethic and human values in the students.
- To create co-ordination between student and society.
- To make them aware about environment through tree plantation.
- To increase the beauty of the nature and to balance the nature.
- To make the people aware about health.
- To create gender equality in the society.
- To maintain law and order during the festivals.

2. THE CONTEXT:-

Challenging issues:-

1. Tree plantation and preservation.
 2. Health preservation.
 3. To maintain law and order during the various festivals.
 4. Removal of polio.
 5. Water conservation.
 6. To maintain environmental balance.
 7. To create social awareness.
 8. Bird preservation.
 9. To create patriotic values.
- Tree plantation and preservation:-
In every rainy season the fall of rain is not up-to the mark. Hence our students have designed to implement the Tree plantation and preservation programme.
 - Health preservation:-
When the N.S.S. Camp is held in the adopted village our students make the village aware about the health preservation.

- To maintain law and order during the various festivals:-
During the festival like ‘Lord Ganesha and Durga’ our students help the Police department to maintain law and order.
- Removal of polio:-
Our students actively participate in the ‘Pulse Polio Drive’.
- Water conservation:-
In every rainy season we planned water harvesting programme water is collected in the well of the college.
- To maintain environmental balance:-
It is must to maintain environmental balance for which our students designed various programmes like tree plantation and preservation. To supply drinking water to the birds. To make the beautification of the campus.
- To create social awareness
To create social awareness student actively participate in the society related problems. Social values, removal of aids and anti-raging programme etc.
- Bird preservation:-
During the summer season it is very difficult to get drinking water for the birds. Hence our students have built the tree pot of drinking water on the trees of the campus. They daily maintained the level of drinking water of the birds.
- To create patriotic values:-
During Dr. Panjabrao Deshmukh birth anniversary programme our students participate in the various competitions held. Most of them are leading to patriotic values.

3. ***The Practice*** :-

In the best practice named “Students involvement in social commitment” there are nine issues which are implemented. To begin the participated students gave the information related to the poster in the exhibition. To motivate the student’s awards were given to three best posters. Taking into consideration the importance of tree plantation and conservation this practice was implemented. During the rainy season every year more plantations was done not only in the college campus but also outside the campus. We could preserve the trees which were planted in the campus. Due the shortage of water we could not preserve the tree planted outside the campus. Due to tree

conservation in the college it added beauty of the nature, so also tree provided pure air to all the students as well as staff.

While implementing the practice of health preservation we organize the camp of Blood Donation and Blood group dictation. In the adopted village of N.S.S the students organize rally and by giving slogans about cleanliness villagers are made aware. Every year the police department seeks the help of the students of our college. During the festival of Ganesh and Durga students contributed to maintain law and order. Whenever necessary and demanded we supply the list of our students to the police department. While implementing the practice of pulse polio our students actively participated in the drive of pulse polio to remove it. They helped the doctors and nurses on those days. Water harvesting programme is followed during the rainy season in the college campus. All the fallen water of rain is collected into the well by digging the small road using sand and stores. Thus water is conserved every year in rain season. Environmental balance is maintained by preserving tree and by providing drinking water to the birds. So also voice pollution is strictly prohibited in the college. Ladies professors organize the shop of lady doctor to get the knowledge to the lady students regarding their problems. Thus the practice of social awareness is implemented.

While implementing the practice of bird preservation our students prepared the pot of drinking waters for the birds. They were tied to the trees in the campus. The level of the drinking water is maintained daily in the summer season.

To create patriotic values in the students we held this practice by organizing various competitions in the students like patriotic songs debate elocution competition relating to the subject of nationality.

Some of the above practices are implemented in the college campus only which is the limitation. The subject of our best practice was so nice that we could not face any social limitation or any pressure.

4. Evidence of Success: -

Due to awareness of girl child people motivated others to save the girl child we have planted tree and preserved them. The evidence is the green campus of the college. Cleanliness drives Rally successes in the achieving health preservation in the adopted village of college. The police department issued certificates to the students for the maintained of law and order during the festivals. The evidence of success is certificates issued by the police department. During the drive of the removal of pulse polio student participated. The success is that no child is affected by the polio during rainy season the programme of rain-water harvest is implemented. The success of it is that the well and boar of the college has good level of water.

The students had given special attention to keep environmental practice added the beauty of the college and infrastructure. There are number of activities which created social awareness. The evidence of success of Bird Preservation is the photo of the facility made available for the birds. The college has organized various competitions relating to

the national pride. As a result the students are full of patriotic values. Hence during the flood situation, they helped the sufferers.

Save the girl child programme was organized on 2nd August, 2012. Blood Donation camps were organized every year on 15th August, and on 26th January.

5. Problems Encountered and Resources Required:-

The Following are some of the problems which encountered while implementing the best practices.

The community has in the mind that every family wants the boy child i.e. son. It was major problem to preserve the planted tree outside the camps. However we could succeed only in preserving the tree in the campus. The villagers care about the cleaning. Hence they suffer and become the victim of the diseases. The problem of pulse polio remora was that people are careless. They have to make them fully aware of it. Water harvesting problem was less rainfall during the rainy season.

While implementing the best practice of environmental balance the problem which we faced was lack of awareness of clean & pollution less air. For which students have to implement the programme of free air by using less vehicles of petrol & diesel. We could only provide water to the birds only and for the animals. High level programmes leading to patriotic value could not be organized. The recourse made available to implement above best practices was supplied by N.S.S fund.

Title of the best practice

B. Blood Donation

1) Goals :-

- To save the life. A blood donation occurs when a person voluntarily has blood drawn.
- To create awareness in the mind of the student.
- To make aware the student about social responsibility.
- To inspire the student to donate the blood.
- To make the people aware about the healthy.
- To create gender equality in the society.
- To make the blood available at anytime from blood bank to whom we deposit.

2) The Content

Challenging issues

- Everyday many people become the prey of an accident.
- Many people in the society prey of disaster disease.

- To make aware every person of the society about blood donation.
- To collect the blood of every group.
- To make students aware about the fact that there is no loss by donating blood.
- Save the patient admitted in the hospital.
- Donating the blood relatively safe.
- To increase the blood donors who are unpaid volunteers who donate for a community supply.
- It is very challenging issue to prepare the students as well as public to make them ready to donate the blood. But it is the need of time to collect the donated blood. Everyday many people die due to the shortage of particular Blood group.

3. The practice

Every year in our college institution we organize the blood donation camp on the eve 15th Aug. and 26th Jan. Every faculty member encourages the student to donate the blood. They are told about the importance of blood donation. Fear of weakness is removed from their mind. With the collaboration of Loins club Nandura, the camp of blood donation is organized in the collage on the above two days.

Students who donate blood are given breakfast and tea. Doctors' team remain present during the whole day.

4. Evidence of success

Due to the awareness of blood donation activity student every year donate the blood not only boy students but also girls students readily donate the blood. Donated blood is supplied to the blood bank Akola. Who supplies the blood to the needy patients. Even this collected blood can be useful to the students of our college wherever necessary. Our institution was rewarded by the vice chancellor of Amravati on the 22nd Aug. 2010 session 2010-11. Hence we continue this best practice this session too. Certificates are issued to such students.

5. Problems Encountered and Resources Required :-

The following are some of the problems encountered while implementing the best practices. Every day the ratio of the demand of blood is more than the collection of blood because the patients who need the blood are more in numbers.

No blood bank is available in our place Nandura. As a result we have to send the donated the blood to Akola. Yet the no. of the students are who donate the blood is not up to the mark. Resource is which require for this best practice is available in our institution. Recovery of blood is necessary. Storage supply and donation are essential factors.
